# Lowering Emissions, Not Re-Fuel Speeds

Introducing the Wayne Helix™ Century 3 LPG fuel dispenser, our high-performance, robust dispenser designed to deliver liquefied petroleum gas (LPG) smoothly and effectively to LPG-powered vehicles. Created to meet the growing need for clean fuels, this dispenser is built to be customized through modularity, giving you the capability to design the LPG solution you need for your business outfit.

Small, but perfectly designed, the Century 3 LPG fuel dispenser is ideal for retail forecourt environments or private fleet businesses that are limited when it comes to space, but that still need the convenience associated with having an on-site LPG dispenser.

Broaden your retail with the Wayne Century 3 LPG fuel dispenser, and help with the wider distribution and availability of LPG fuel in the European market.

# Let's Gear Up for LPG

## Make it Yours

---

The Century 3 LPG fuel dispenser is built to be truly modular, meaning that you're able to pick and choose the features you need in order to create the perfect LPG solution to suit your business needs.

## Best-of-the-Best Componentry

---

Built with field-proven, best-of-the-best components, coupled with corrosion-resistant materials that offer exceptional durability, this dispenser has been designed by our team of engineering experts to stand the test of time.

## A Dispenser You Can Rely On

---

Delivering reliable performance time after time thanks to its in-built, leading technology, the Wayne Century 3 LPG fuel dispenser offers exceptional performance and outstanding operational reliability.

## Built on Technology Leadership

---

As with all of our dispensers, the Century 3 LPG fuel dispenser is designed to deliver a low total cost of ownership over its long lifetime, thanks to its reduced need for service intervention. At Dover Fueling Solutions (DFS), we're proud that our products are born from technology leadership, and the Century 3 LPG fuel dispenser is certainly no different.
